

Applied BioCode

BioCode® *Candida tropicalis* BMB-Probe

Catalog Number: **44-B0350**

Analyte Specific Reagent.
**Analytical and performance characteristics
are not established.**

Product Information

Product Description: The BioCode® *Candida tropicalis* BMB-Probe targets a conserved sequence in the ITS2 region of *Candida tropicalis*. The BMB-Probe consists of a target specific probe coupled to Barcoded Magnetic Bead (BMB) number 58 for the capture and subsequent detection of DNA or amplified PCR products.

Storage Conditions: Store at -20°C. For convenience, the BMB-Probe may be stored at 4°C for up to three months. Repeated freeze/thaw is not recommended.

Volume: 250 µL per vial

Concentration: 50 BMB/µL

Purity: HPLC purified

Warning and Precautions:

- Dispose of unused reagents and specimens according to local, state, and federal regulations.
- Wear appropriate personal protective equipment including, but not limited to, lab coats, gloves, and protective eyewear. Change gloves often.
- Do not pipette by mouth.
- See SDS for details.
